

Causes of the development gap

Using the information on the last 3 slides of the powerpoint, answer the questions below.

1. How does a poor quality education = lack of development?

--

2. Water availability and quality is worse in LICs. This prevents development because.....

--

3. Why does Haiti take longer to recover from an earthquake than Japan?

Haiti	Japan

4. What are Landlocked countries?

--

5. Why do landlocked countries not develop as quickly as non-landlocked countries?

--

6. Why are families in LICs forced to abuse their land more than families in HICs? How does this affect their development?

--

7. Why do HICs have a higher GDP than LICs?

--

--

8. What are the main causes of deaths/types of deaths in HICs and LICs?

HICs	LICs

Extension: Describe the causes of global inequalities. (6 marks)

Define global inequality:
Social factors which can effect global inequality:
Economic factors which can effect global inequality:
Environmental/physical factors which can effect global inequality:
Political factors which can effect global inequality:
