

OCL Physical Education Curriculum: Statement of Intent

Purpose of study

Physical education should inspire students to become physically competent in a way which promotes lifelong physical activity. The Oasis Physical Education Curriculum will improve students' health and wellbeing through a holistic approach that allows them to flourish and become valuable members within their community. Students will be provided with opportunities to develop personally through a wide range of experiences. They will have opportunities to engage and excel in competitive sport, physical activities and leadership, building character and embedding wider core values throughout.

We value character, competence and community in our curriculum:

- **Character:** Physical education can promote the holistic development of students, helping them to become better versions of themselves by emphasising moral traits such as respect and fairness. Within our heart assessment students will be encouraged to promote sportsmanship and fair play, students will develop good habits that will bring out the best in each other both inside and outside of sport and physical activity.
- **Competence:** Through our hands and head assessment students will be developing their competence within physical education, which will improve confidence and provide students with the skills and knowledge to lead physically active lives. Physical education will ensure students aspire and take the next steps in their education and personal challenges.
- **Community:** Through teamwork and opportunities to build character, physical education can foster a sense of belonging amongst students. Students learn how to work collaboratively in physical education which is embedded within the heart assessment, developing leadership skills and helping students to create meaningful relationships and contribute to a positive community culture. Students will understand the pathways within community sport promoting lifelong physical activity. Through sport, students will recognise social and physical barriers to sport within their community and wider topical issues, modelling the nine habits.

Core concepts and principles of progression

The Oasis Physical Education curriculum is sequentially planned so that the core and wider skills and knowledge required to be physically literate are developed over time.

- **Movement skills (Hands):** students develop locomotor, non-locomotor and object control skills, these are the building blocks of developing physical literacy. The success of developing these skills can positively affect health throughout an individual's lifespan.
- **Health and fitness (Hands):** students will develop the knowledge and skills required to maintain and improve their health as part of their commitment to lifelong healthy choices. Teachers will encourage the holistic development of students' health and wellbeing ensuring that physical education not only improves their physical development but their intellectual, emotional, social and spiritual development. Students will be able to apply the key concepts and healthy eating model to their wider lives.
- **Technical skills (Hands):** students learn the skills required to take part in a wide range of sports, providing them with the necessary skills to be physically competent and, if they desire, to excel in their chosen sport(s).

- **Tactical knowledge (Head):** students learn how to select and apply appropriate tactics and strategies and apply these to the sport or situation they are in.
- **Leadership (Head & Heart):** students will develop teamwork and communication skills that will encourage them to become effective leaders, they will foster leadership qualities through experiences and extra qualifications that will enable students to be active role models to others.
- **Analytical skills (Head):** students will be able to identify strengths and areas for improvement in themselves and others, offering effective advice to improve performance.
- **Sportsmanship (Heart):** students will learn the importance of respect and fair play in sport, they will actively role model a positive sporting etiquette.

Aims:

1. To encourage the personal development of students through a range of experiences and activities.
2. To equip students with the skills and knowledge to become physically literate.
3. To develop students holistically, promoting the positive benefits of a healthy lifestyle.
4. To develop an awareness of local, national and global barriers within sport.

Through our carefully sequenced and ambitious curriculum we intend that our varied and diverse physical education provision will achieve these outcomes:

Hand:

- Work with subject specialists/ professional coaches/ community clubs from a range of sports.
- Demonstrating a variety of movements confidently and competently across a wide range of physical activities.
- Performing sporting skills with good technique and fluency.
- Engaging in extracurricular clubs and enrichment activities that allow them to develop their own sporting interests and skills.

Head:

- Implementing tactics within a variety of sporting scenarios.
- Developing the motivation and ability to understand, communicate, apply and analyse various forms of movement.
- Creating opportunities for students to identify areas of improvement and the knowledge required to make those improvements.
- Understanding the importance of being active and making educated healthy choices.

Heart:

- The promotion of sportsmanship, fair play and empathy through sport and physical activity.
- Develop communication skills and social skills through team-based activities.
- Demonstrating a self-belief and desire to improve.
- Recognise the importance of inclusivity and work with others to promote a positive learning environment.
