Dear parents/carers,

Due to the increase in the number of positive Covid cases throughout secondary schools in the Salford area, Public Health has recommended that we reintroduce face masks in communal areas of school for all staff and students.

Please see the latest letter from Salford City Council

We do have some face masks in school which we will supply to students as they arrive in school tomorrow.

Further information around the Covid vaccination roll-out in school will be sent out to you later this week.

Thank you for your support and understanding as we try to keep our community safe during this period.

Best wishes

Mr P McEvoy

Principal
